

Subject_ 14882 IVANHOE

Craig,

I received a call from (Resident name and telephone number removed) inquiring why there was a sidewalk in front of the home but none on the side. She said that this corner is a bus stop and that the kids either walk on the lawn in the mud & snow or on the street. We found that the home was built in 1986 and it appeared to be one of the last homes in the project at that time. The area to the east was all woods. Somewhere along the line the sidewalk was never installed. Tim didn't think it would be right to go back now after 27 years and ask them to install it.

Tim wanted me to contact you to see if there was any money available to do this project. Also since John Farnese is already working perhaps he could do it this year.

Please advise either Tim or I.

Thanks

Richard T. Zavislak
