Subject: Sidewalk on 25 Mile Road

I am a resident of Shelby Township and live in the Northern Area along 25 mile rd. I am wondering what the plans are to put a bike path/sidewalk along 25 Mile Rd. from Jewell to Mound. There is a stretch between Jewell and Van Dyke Rd that the speed limit is 50 mph, and walking or riding your bike along the side of the road is very dangerous. I have seen people walk along this section when the visibility is very poor. In addition placing a path along this section will connect the areas east and west of M53, similar to what has been done along some of the other mile roads.

what would be the procedure to get a path placed along this section.
